Login with my USDA LincPass

Login with my LincPass

**USDA employees & contractors may now use their LincPass to login.
Instructions:**

1. Please verify your LincPass is inserted into the card reader for your USDA computer.
2. Click the yellow "Login with my LincPass" button above.
3. A pop-up box "Choose a digital certificate" may appear.
4. Select the first or second certificate with your name and click "OK".
 - First time users:
 - Try your first certificate.
 - If your login fails then change your selection to your second certificate.
 - The certificate (first or second) that works for you will be the same for future logins.
5. Enter your LincPass PIN at pin prompt, if required.

Create Application - Select Agent Confirmation

Is this an application to move or import select agents, the genes expressing select agents, or the toxins made by the select agents?

- No.** This is NOT an application to move or import select agents. 
- Yes.** This is an application to move or import select agents.

The Agricultural Bioterrorism Protection Act of 2002, as part of the Public Health Security and Bioterrorism Preparedness Response Act of 2002, requires entities that possess, use, or transfer agents or toxins deemed a severe threat to animal or plant health or products must notify and register with APHIS. This law is designed to improve the ability of the United States to prevent, prepare for, and respond to bioterrorism and other public health emergencies that could threaten public health and safety or American agriculture.

The following is a list of select agents and toxins which PPQ has considered select agents:

Peronosclerospora philippinensis (Peronosclerospora sacchari)
Phoma glycinicola (Pyrenochaeta glycines)
Ralstonia solanacearum
Rathayibacter toxicus
Sclerophthora rayssiae
Synchytrium endobioticum
Xanthomonas oryzae

Additional information regarding the USDA Select Agent Program can be found at:

http://www.aphis.usda.gov/programs/qa_selectagent
